

## REVOLT IN MONGOLIA.

Troops Have Been Sent from Peking to Quell the Outbreak.

Serious Troubles Reported in the Chinese Imperial Palace.

Japanese Perhaps Intend to Raid the Arsenal at Kirin.

(By Associated Press.)  
TIEN-TSIN, Oct. 5.—Reports have reached here that a rebellion has broken

out in the province of Mongolia. Troops from Peking have been sent to quell the uprising. Serious troubles are said to have arisen within the palace at Peking. No details have reached here as yet. A number of Europeans from the outlying districts are arriving here. The residents of Tien-Tsin are taking every precaution possible against an anticipated attack on the part of the natives.

LONDON, Oct. 5.—Mr. Allen, formerly British Consul at New-Chang, writes to The Times, stating that Lanchow, where the Japanese are reported to have landed, is unquestionably Hun-chuan, near the frontier of Korea and Russia. Mr. Allen suggests that the Japanese will attempt a march against the Arsenal of Kirin, 200 miles distant.

SHANGHAI, Oct. 5.—The Chinese merchants are cancelling freight contracts to Chefoo and Tien-Tsin, owing to a report that the Japanese intend to blockade those ports.

Several Japanese warships are patrolling the coast near Wei-Hai-Wei, the Chinese war port on the Shan-Tung promontory. They approach the coast at night and steam seaward again at day-break.

It is said that the object of these movements is to prevent Chinese warships from leaving Wei-Hai-Wei or Port Arthur, on the opposite side of the Yellow Sea.

It is stated here that the Japanese do not intend to interfere with the export of coal to China.

Mongolia is an immense province of Northwestern China, taking its name from the Mongols, or Tartars, who have inhabited it since the earliest ages, and who, in the centuries before the Christian era, repeatedly threatened the destruction of the Chinese. It was, in fact, against the Mongolians that the great wall was erected on the then Chinese boundary in the year 220 B. C. The Mongols are wandering tribesmen, whose chief source of wealth lies in their live stock. Some of the richest coal-fields in the world are between the Yellow Sea and Mongolia.

**AFTER THE WAR SCARE.**  
Talk of Anglo-Russian Trouble—The British in China.

(By Associated Press.)  
LONDON, Oct. 5.—The Daily News, in a leading article, quoting John Russell Young's statement in reference to the Korean war, says: "The Cabinet had naturally to discuss the proper steps to take in the emergency of a Japanese rush over Chinese ports, such as Mr. Young anticipates. We are far from anticipating Russian interference in the quarrel, but the possibility has to be considered, and it was probably taken account of at yesterday's council."

The News also says that Sir William Harcourt would not summoned back to London at all. On the contrary, he received a telegram to the effect that he need not come to the council. The Ministers. The News adds, will forthwith return to their holiday haunts. It also says that the customary arrangements are being made for a further prorogation of Parliament.

The Manchester Guardian is informed that Russia and Great Britain have definitely decided that the settlement of the war must be an international and not a Japanese affair. Germany and France are said to have acquiesced in this decision, while the policy of the United States is still regarded as uncertain.

A despatch to The Standard from Berlin says: The Vossische Zeitung re-

ports the Korean war as a forerunner of a great Anglo-Russian collision, which the conflicting interests of those powers are certain sooner or later to bring about.

PARIS, Oct. 5.—The Gaulois, commenting on the British Cabinet Council held yesterday, asks if British intervention in the Korean trouble might not constitute a repetition of the famous coup of 1878, which enabled Admiral Lord John Hay to take possession of the island of Cyprus.

Further to the same subject, remarks: "The British once landed in China would not be able to resist the desire to service pressure upon the Japanese in order to prevent them from deriving all the advantages of victory. The troubles may then commence, and the peace of Europe will be threatened, for Russia, France and even America will certainly intervene."

**Russians to Explore the Nile.**  
(By Associated Press.)  
LONDON, Oct. 5.—A St. Petersburg

despatch to the Chronicle states that the Russian explorers, Count Kreitz and Baron Nolde, are fitting out an expedition to consist of 300 armed followers and 200 camels, to explore the Nile country near Lakes Rudolph and Stephanie. The expedition will be absent three years.

**REPORTS ABOUT THE CZAR.**  
One That Reached Amsterdam Said That He Was Dead.

(By Associated Press.)  
AMSTERDAM, Oct. 5.—A report reached the Bourse here to-day from Paris that the Czar was dead. As a result there was a fall in the price of Russian securities.

PATIS, Oct. 5.—Serious rumors were circulated here to-day in regard to the condition of the Czar's health. Transactions on the Bourse, in consequence, were weak.

BERLIN, Oct. 5.—The Bourse to-day was weak on account of alarming rumors in circulation in regard to the health of the Czar.

LONDON, Oct. 5.—Alarming reports reached the Stock Exchange here to-day about the Czar's health. The reports, however, had little effect upon the market, as they were discredited.

**FREE WORSHIP IN HUNGARY.**  
Bill Granting It Passes the Upper House by Three Majority.

(By Associated Press.)  
BUDAPEST, Oct. 5.—In the upper house of the Hungarian Diet, to-day, the bill granting liberty of worship to all religious beliefs was adopted by a majority of three.

The debate on this bill began on Oct. 3. Cardinal Szeplacs, the Serbian Patriarch and the Roumanian and orthodox bishops opposed the measure, declaring that the ecclesiastical proposals of the Government would ruin society and the State.

Count Eszaky, the Calvinistic Bishop Szasz and others endorsed the declaration of the Ministers of Worship that the bill in the outcome of the spirit of the times.

**PROF. BOTTA DEAD.**  
He Succumbed to Injuries Sustained in a Fall.

Prof. Vincenzo Botta, one of the Vice-Presidents of the Union League Club, author and scholar, died early this morning from the effects of a fall from the third story window of his home, 25 West Thirty-seventh street, on Tuesday morning last.

He was seventy-two years old and born in Cavenero Maggiore, Piedmont, Nov. 11, 1831. After graduating from the University of Turin, he became a professor in that institution. He came to this country in 1883, and never returned to his native land.

In 1885 he was married to Anna (Charles) Lynd, the author. He was elected to the chair of languages at the University of the City of New York, and resided in the position after the death of his wife, about two years ago. Prof. Botta was the author of a number of scientific and historical works.

**A \$2,500,000 Trust Deed.**  
(By Associated Press.)  
CLEVELAND, O., Oct. 5.—The Mechanical Rubber Company, of New Jersey, has filed in the County Recorder's office in this city a trust deed for \$2,500,000, to secure the issue of bonds for a sum amounting to the same.

The deed is in favor of John P. Townsend and John A. Tinsley, trustees, of New York City, and covers valuable property in this city.

**RECEIVER ASKED FOR.**  
Coffin & Stanton, Bankers, to Dissolve Partnership.

The Assets and Liabilities Both Estimated at \$3,600,000.

Lawyer Newman Erb to Take Charge of Their Affairs.

United States Circuit Court Judge Lawrence to-day appointed Newman Erb, of 21 East Seventy-fourth street, receiver of the banking firm of Coffin & Stanton, of 72 Broadway.

Mr. Erb has not yet been served with notification of his appointment, and up to noon had not assumed charge of the bank's affairs. Mr. Erb's bond is \$5,000, and his sureties will be the Lawyers' Surety Company, of 32 Liberty street.

The assets of the bank are \$3,600,000 and the liabilities are said to be about the same. The firm is composed of William E. Coffin and Walter Stanton, and is one of the oldest and best known banking houses in New York City.

Mr. Stanton made application for the receivership yesterday afternoon. He asks for a dissolution of the partnership, and also that an accounting be made of all the partnership dealings between the two partners, and further, that W. E. Coffin be adjudged to pay the complainant what, if anything, is due upon the taking of the accounts, appearing due to him; the applicant being at all times ready to pay the respondent whatever may be declared due him.

Mr. Erb was seen at noon to-day. He said he expected to be in court at 2 o'clock, and then, Tracy, attorneys for the firm, at any moment, to deliver the papers to him. As soon as he received these documents he said, he would take charge of the firm's affairs. He stated that he was asked last night by both partners if he would accept the receivership, and that he consented.

Coffin & Stanton, he said, had been in business about ten years. They dealt in municipal, water and railway bonds and other securities to the extent of millions. They carried and floated the bonds of many Western cities. Differences had recently arisen between the partners and they had agreed to dissolve partnership.

This step Mr. Erb declares, has no semblance of an assignment, as the concern is sound and one of the other of the partners will continue the business.

**PANTATAS IN CHICAGO.**  
"Shell-Worker" Dean Says He Paid the Police Tribute.

(By Associated Press.)  
CHICAGO, Oct. 5.—Judge Goggin severely criticized from the bench yesterday the conduct of several officers of the Central detail, and particularly Inspector Shea, Chief of the Detective Bureau. The case was an application for a writ of habeas corpus in behalf of Richard Dean, a "shell worker." The evidence went to show that Dean had been repeatedly arrested without warrant and had been maltreated by Inspector Shea. Dean also declared that while practicing his game with shells, he had paid officers McLean and Nolan some varying from \$15 to \$40 per week for protection. Since he ceased paying tribute, he declared, the police had persecuted him. Judge Goggin remarked:

"If all this is true, Inspector Shea ought to be held for the Grand Jury." Dean was discharged.

## FOR WEAK WOMEN.

A Discovery of Priceless Value.

What Gives One Woman Advantage Over Another?

How to Be Master of Yourself and Look Your Best.

Shakespeare says: "He jests at scars that never felt a wound."

How often it happens that weak, nervous, suffering women are the subjects of ridicule by friends, who, being well themselves, cannot understand such feelings in others. Yet there is no more terrible suffering than that resulting from nervousness, and it is the most prevalent of all complaints.

The most frightful tortures haunt the mind; the person is in constant dread of impending evil, sleep refuses to come, and the merest trifles cause worry and anxiety. Thoughts of insanity develop, and the poor sufferer feels weak, tired and unable to do anything. There are sometimes faintness and sinking at the stomach, loss of appetite, coated tongue and lack of interest in society and daily affairs. Female weakness, with pains in the side, back or abdomen, are often present. Miss Nettie Richards, of Livermore Falls, Maine, says:

"For two years I had hysterics, and was faintly nervous. I would have them every day, and was in a terrible condition. My limbs were cold all the time. I could not sleep nights and had no appetite. My nerves were in a frightful state, and I was very weak."

After taking three bottles of this wonderful medicine, I was in perfect health. I think it a splendid medicine and would advise everybody to try it.

To look well and feel well you want strong nerves and good blood. They are quickly, and permanently made by Dr. Greene's Nervina blood and nerve remedy. It is doing wonderful work among the sick and suffering. It will cure you also. You need just such a remedy.

It is the discovery of Dr. Greene, of 35 West 14th St., New York City, the most famous specialist in curing nervous and chronic diseases. You can consult him free, personally or by letter.

(By Associated Press.)  
QUINCY, Ill., Oct. 5.—Amelia T. Coffin and Eliza A. Solomon, who live in Chicago and Denver respectively, have brought suit to set aside the will of Minerva Merrick Orchardson, who was a Spiritualist of National reputation and a woman of wealth, refinement and intelligence.

Shortly after their arrival here an officer came down from Elgin, Ill., taking both to Elgin, where Vera Ava was said to be the beneficiary for two years for stealing \$400. The complainants represent in their bill of complaint that Minerva Merrick Orchardson was of unsound mind at the time of making the will.

(By Associated Press.)  
PHILADELPHIA, Oct. 5.—Anxiety prevails in shipping circles regarding the British steamer Empress, Capt. Samuel Hughes, which sailed from this port Sept. 18, via New York Sept. 20, for Kingston, Jamaica, laden with a cargo of lumber and railroad ties, valued at \$1,988. Although flying the British flag, the missing steamer is owned entirely by this city by Capt. Hughes and the Hart Steamship Company.
